

Full Stack Developer

We are looking for skilled full stack developers to get us across the finishing line and move forward into future releases of our platform.

We are using Perl, Oracle PL/SQL, SQL, Javascript, and a little C, we are looking for self-motivated developers with 2 or more of the languages we are using (and the willingness to learn more).

Required skills:

- o Excellent knowledge of 2 or more of Perl, Oracle PL/SQL, SQL, Javascript, C.
- o Good knowledge of Unix/Linux.
- o Good working knowledge of Subversion or Git.
- o Excellent problem-solving skills.
- o Must be a self-starter with a strong attention to detail.

Useful skills:

- o Knowledge of the gambling industry.
- o Knowledge of gambling commission Remote Gambling License.
- o ISO 27001.
- o CSS.
- o JSON/RPC.
- o Secure systems.
- o Working knowledge of payment providers.
- o An interest in sport and especially, football, horse racing, tennis and cricket.

You will be working with a small team of 4 developers in our offices near Wetherby and there are a wide variety of tasks we are working on.
